

Leading the way in horsebox innovation

Ouvre la voie à l'innovation vans
Führend in Innovation Pferdeanhänger

Equi-Trek are delighted announce that we have now obtained full European Type Approval for 'Motorcaravan' (or Leisure Vehicle 'LV') status on two of our most popular models. This will benefit the private owner in many ways. For further information regarding the advantages of Motorcaravan status in your country of residence, please refer to your local Equi-Trek dealership and the relevant local authorities.

The Victory LV (4.5 tonne) and Valiant LV (5.0 tonne) will benefit the private owner in the following ways:

1. No speed limiter:

The vehicle is only restricted to national speed limits and may travel of speeds up to 70mph on a motorway. Equi-Trek do not advocate travelling at excessive speeds whilst transporting livestock, however there are many occasions when it may be advantageous to the operator (i.e. when travelling unladen).

2. Use the third lane of a motorway:

This is particularly useful at times of severe traffic congestion in the middle lane (i.e. lines of slow moving HGV's). It enables the operator to safely overtake slow moving traffic in the centre lanes thus considerably reducing journey times and stress in your horse.

3. No tachograph:

These models used privately do not require a tachograph to be fitted. Please note the standard Victory and Valiant models have full European Type Approval as 'Goods Vehicles' for the business user who is required to use a tachograph by law.

4. No MOT for the first three years:

After three years, the vehicle can be tested at a normal MOT testing station and does not need to go to a DVSA testing station for a HGV test.

Please note that the legislation quoted here applies exclusively to the United Kingdom and is correct at the time of publication. It is possible the legislation may differ throughout the rest of Europe; it is the operators responsibility to check and adhere to the local law.

Making travelling your horse easier than ever before

Faire voyager votre cheval encore plus facile
Erstellen Sie Ihr Pferd unterwegs noch einfacher

Equi-Trek est ravi de vous annoncer que maintenant, l'Entreprise a obtenu les homologations Européennes, pour le "véhicule de loisir", sur deux de nos modèles les plus populaires: le Victory (4,5 tonnes) et Valiant (5,0 tonnes). Pour de plus amples informations sur les législations relatives au permis plus de 3T5 veuillez-vous référer à votre revendeur local ou autorité concernées.

Se il vous plaît noter que la législation citée ici se applique exclusivement au Royaume-Uni et sont correctes au moment de la publication. Il est possible de la législation peuvent faire une distinction au long du reste de l'Europe; il est de la responsabilité des opérateurs de vérifier et de se conformer à la loi locale.

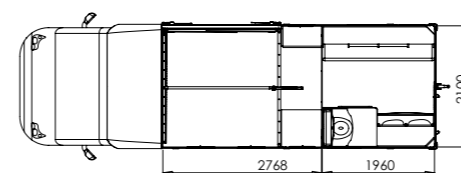

Mit Freude können wir von EQUI-TREK verkünden das nun für unsrerer Erfolgsmodelle Victory (4,5 Tonnen) und Valiant (5,0 Tonnen) eine neue EG-Typgenehmigung erteilt worden ist.

Bitte beachten Sie , dass die Gesetzgebung hier genannten bezieht sich ausschließlich auf das Vereinigte Königreich und ist zum Zeitpunkt der Veröffentlichung korrekt . Es ist möglich, die Rechtsvorschriften in der gesamten übrigen Europa unterscheiden ; es ist der Betreiber verantwortlich, zu überprüfen und sich an die örtlichen Gesetze .
