

The Evolution

Revolutionary Lightweight 7,000kg Horsebox

THE EVOLUTION

Expanding upon our hugely successful range of horseboxes and trailers, we now introduce the EVOLUTION. Built upon a brand new Iveco chassis chosen for its unrivalled performance and drivability, the EVOLUTION is a three stall* horsebox with exceptionally spacious overnight living quarters, afforded by its unique, full height, walk-through cab/living area.

The fully equipped living area of the EVOLUTION incorporates a large L-shaped seating area which converts into a comfortable double bed, whilst the second double bed, situated above the cabin, can be raised and lowered only when required, offering a huge amount of daytime living space.

As with all our Large Horsebox models, the EVOLUTION is available to four standard specifications; Classic, Excel, Elite and Transporter. Unique to this size of vehicle, the EVOLUTION 'ELITE' even includes an extra-large slide-out side incorporating both the kitchen and bathroom areas. Please refer to our Large Horsebox brochure or website www.equi-trek.com for full information and prices.

The EVOLUTION is also available with the Leisure Vehicle Pack which can give the advantages of no speed limiter, no tachograph, no MOT for the first 3 years, and the ability to use the third lane of the motorway (please see pages 30-31 of our Small Horsebox Brochure for more details).

* Subject to size and weight.

Advantages of Iveco

The Iveco chassis was chosen in order to guarantee maximum performance and lowest running costs, whilst ensuring unbeatable comfort, superior performance and minimal fuel consumption.

With its 6 speed gearbox, changing gear is faster and more accurate, whilst the driving position, visibility and feel are very similar to a car making it exceptionally easy to drive. In addition, the Iveco's upgraded suspension system improves the vehicles overall stability for the smoothness and comfort of both yourself and horse.

The exceptionally generous payload of the Iveco is as a result of the class leading capacity of both the front and rear axles. In addition to the large capacity and reduced weight, the rounded hood of the Iveco provides easy access to the engine whilst improving the aerodynamics, thus delivering a considerable fuel saving.

Cab Standard Features

SAFETY

- Driver SRS airbags
- ABS brakes

DRIVEABILITY

- Ergonomic interior with car-like controls, excellent visibility and manoeuvrability ensuring a comfortable driver experience
- The slim cab and folding mirrors provide safe passage through the tightest of spaces
- The low chassis height and reduced centre of gravity ensures utmost stability. The angle of the ramp is much lower without compromising on the internal height and head room

COMFORT

- Economical, quiet and relaxing to drive
- RDS radio & CD player
- Fully adjustable drivers seat
- Electric windows
- Four speed cab heater
- Large, foldable, heated mirrors
- Bluetooth

PERFORMANCE

- Smooth, quiet and easy to drive with a powerful 3.0 litre 150BHP engine
- Compliant with the very latest Euro 6 emissions
- Economic 6 speed gearbox (Automatic gearbox available)
- Hydraulic braking system
- Power steering

WEIGHT

- Iveco have one of the greatest payloads of all large truck manufacturers, providing the Equi-Trek EVOLUTION with a market leading carrying capacity of up to 2,500kg

WARRANTY

- 3 years unlimited mileage warranty

SECURITY

- Remote keyless control entry
- Central locking
- Immobiliser
